

## How TIR benefits traders

Fast, efficient and secure

### TIR – the only global transit system

The TIR system enables goods to be shipped from a country of origin to a country of destination in **sealed load compartments**.

TIR offers a **customs declaration and guarantee** for duties and taxes.

By sending advance cargo information to all customs authorities en route, TIR expedites the release of cargo at international borders.

**TIR is intermodal and has 78 Contracting Parties.**

#### Efficient and fast

**Cut transport times by up to 80% and costs by up to 50%**

**Manage entire transport operation with a single guarantee and declaration**

**Receive 24/7 support from IRU and national associations**

#### Cargo securing

**Reduce risk of theft, smuggling or other damages**

**No physical inspection en route**

**Partner with trustworthy hauliers whose vehicles have been vetted**

#### Transparent and predictable

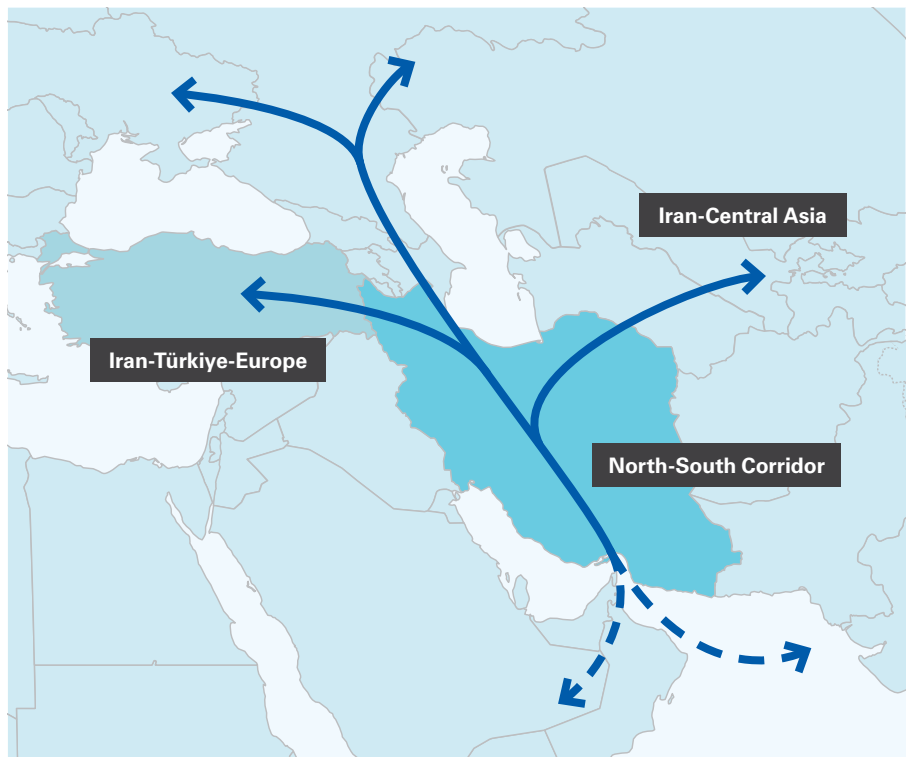

**View status of TIR operation at borders and destination with TIR-EPD**

**Rely on fixed and predictable transit guarantee payment**

**Minimise interactions with third parties, perform all customs procedures pre-departure**

## TIR in Iran

- Facilitate transport of Iranian exports and imports with Türkiye, Europe and CIS countries
- Reduce customs control ratio at Turkish borders under TIR (by 50%) or with TIR Green Lanes in Kazakhstan, Kyrgyzstan, Turkmenistan and Uzbekistan
- Cross Iran-Türkiye borders during non-working hours on weekends, non-TIR users must wait until next working day
- Cross borders 2 times faster than non-TIR users
- Reduce costs by up to USD 40 per operation as transit declaration is not required for Azerbaijan and Turkmenistan
- Rely on EUR 100,000 guarantee, and up to EUR 200,000 with TIR+, for customs duties and taxes, not required to escort high-value goods

Main corridors using TIR to and from Iran

## How to proceed?

Exporters and importers can ensure the security and efficiency of transport by incorporating TIR as a requirement in their tenders or making the use of TIR a condition reflected in contracts with logistics service providers.
